

# JUNGIAN STUDIES: EXPLORE OUR PAST, CREATE YOUR FUTURE.

Our **MA Jungian and Post-Jungian Studies** – the only one of its kind in the world – offers you the opportunity to learn from leading Jungian analysts and academics about the key texts, multiple contexts, core concepts and a range of applications of Jungian and Post-Jungian thought.

These applications include exploration of areas such as gender and sexuality, social and political issues such as problems facing refugees, children's rights, religion and the body.

The course fulfils the academic prerequisites for many clinical training programmes, and a high proportion of our Masters graduates go on to do PhDs in Jungian and Post-Jungian studies.

The Centre for Psychoanalytic Studies is unique in bringing together Jungian and psychoanalytic approaches. It is renowned nationally and internationally for its research and teaching, which combines academic and clinical viewpoints.

“One looks back with appreciation to the brilliant teachers, but with gratitude to those who touched our human feelings. The curriculum is so much necessary raw material, but warmth is the vital element for the growing plant and for the soul of the student.”

C.G. Jung
